

Progress Report, **April 13 2021** (*8 hours after the first report*)

Site Completion: About **72%**

Missing Features:

- Feed View Post
- Feed Comment
- User View Liked Posts
- Admin Controls (this is after 100%, doesn't count)

Needs Further Work:

- Profile.php
- handleLogin.php
- General CSS stuff

Would be nice to implement, but current way is fine:

- AJAX (either through jQuery or through pure Javascript, but pure JS is preferred)

At this pace, probably going to mostly finish the site before the 20% passing...
